I finally got it to open on the older computer, but when I print it, the page is cut off on the right side and the bottom. I've tried playing with the margins (as well as copy and pasting it in Word and reducing the %), but I can't get it to print correctly. Would it be possible for you to make a copy of yours and leave it for Jim to get for me the next time he is down there (he's hoping to go next Thursday, but it depends on what happens with one of his trials)? If not, just let me know and I'll keep trying. Thanks.

Keep me posted. (there are about 31 pages)

We'll figure it out.

Hi Annie-

I tried to open the .pdf and IE informed me that it cannot be opened as a webpage. It did let me see your cover page the first time I tried to open it, but not since. I will try to open it later to see if it is just a temporary computer thing.

Sonja,

I have attached the entire discovery packet for this case. I sent it to Laura in 11/19/10.

Feel free to testify for me. Haha.

Hi Annie-

You are probably aware of this case already, but in case you weren't I thought I'd pass it along to you (you are the 1st chemist for these numbers, as well as for [REDACTED]). When you have a chance (no rush since the trial isn't until May), would it be possible for you to email me the files for the MS data? Thanks.

Also, Peter mentioned that you have tested for lisdexamphetamine in the past. I believe he said that it is an "E", but if you have a mass spectra or IR of it, would you mind getting a copy to me? I'm having some trouble getting it (I wasn't aware it was an "E" ahead of time), and I'm a little bit worried as the MS gave me a peak much later than I thought with a huge 84 peak. Thanks again.

Hi,

I was recently assigned the [REDACTED] drug case in the Brockton District Court. It's a 2004 case which was granted a new trial based on Melendez-Diaz. You performed analysis on the drugs back in 2004 ([REDACTED]). Could you please send me a copy of your resume so that I can provide it to defense counsel? The case was recently marked for trial on 5/16/11.

Thanks,
